WASH. POST 24 JUNE 58 Party Ousts Burmese Premier U Nu

RANGOON, June 23 (AP)

Neutrality Premier U Nu has been expelled from Burma's ruling political party in a serious split with his anti-Communist elements.

A rump meeting of 140 members of the Supreme Council of the Anti-Fascist People's Freedom League voted the Premier out of the party yesterday. Another 120 members boycotted the meeting and remained behind the Premier, who continues in office until scheduled elections this fall.

U Nu's opponents are backers of former Deputy Premiers U Ba Swe and U Kyan Nyein, both Socialist like the Premier but bitter anti-Communists.

At yesterday's meeting U Nu was accused of working with the opposition "who are above-ground allies of the Communist insurgents" and with releasing two Communist members of Parliament from jail so he would have their votes in a June 9 confidence vote.

U Nu won the vote by a narrow majority, thanks to Communist support.

The Premier probably will refuse to recognize the Council's decision to oust him. He is president of the League and claims the sole right to call the Supreme Council into session.
